

## Hoarding and Feral Cat Programs Now on DVD

Feeling overwhelmed and a little lost when it comes to handling animal hoarding cases or managing ferals? Now available on DVD from The Humane Society of the United States, *An Animal Hoarding Task Force Solution* and *Effectively Managing Feral Cats* can help guide shelters and rescues through these demanding situations.

In *An Animal Hoarding Task Force Solution*, graphic footage takes the viewer into the horrors of animal collecting and explains some reasons behind it. The DVD is an excellent resource for educating community leaders and local government about the issue, and helps explain why collaboration between shelters, mental health agencies, and other community partners is the best way to approach hoarders.

*Effectively Managing Feral Cats* is a two-disk package that provides a thorough examination of trap-neuter-return, complete with a detailed handbook in .pdf form, a PowerPoint presentation, and two instructional videos, one about the practice of trap-neuter-return and one about how to perform mass cat trappings.

Both DVDs are available in the professional materials area of [animalsheltering.org/publications](http://animalsheltering.org/publications) and can be purchased for \$9.99 each. AS

Why is this cat smiling?

"...Ahhh..."
