

Humane Food Policy

1. Purpose and Scope

The Humane Rescue Alliance (HRA) believes all animals deserve humane treatment.

As part of our mission, HRA provides care to animals of all species, including animals commonly raised for food. HRA believes it would be inconsistent and hypocritical for an organization dedicated to saving animals to serve animal products as food for people.

2. Policy

All food purchased by HRA for events and meetings will be vegan. Additionally, for events featuring or connected to HRA where food is funded by another party, all efforts will be made to have humane food choices, and HRA will recommend vegan food.
