

Helping Cats around the world with TNR!

Laying the groundwork

- Forming successful partnerships
- Who are your “boots on the ground?”
- Identifying clinic and trapping locations
- Volunteer recruitment

Logistics

- Setting up the clinic (Thinking outside the box!)
- Clinic flow & patient comfort/safety
- Supplies

Medical considerations

- Safe anesthesia (protocols & procedures)
- Appropriate suture & technique
- Recovery/Post op care
- Giving each cat your all!

Successful and Safe Trapping

- Trapping 101
- Importance of targeted trapping
- Community outreach
- Identification

The Other Stuff...

The Other Stuff

- Legal considerations, licensing, customs, etc.
- Politics
- Cultural considerations
- Emotional aspects

Following up after a successful campaign

- RTF?
- Continued access to spay/neuter
- Responsible colony management

Working in sensitive environments

- Environmental impact
- Cats as predators
- Toxoplasmosis
- Case studies : Galapagos, Trapped in Paradise (Hawai'i)
